April 19th, 2025 3:25 PM

Meeting Log - 5

Members Present

- Aiden (meetling-logger)
- Sam (admin)
- Jorge (tech coordinator)
- Jack (debugger/tester)
- Daniel (head of design)
- Liam (lead developer)

Brainstorming Session

- Who wants to do what tasks?
- What platform and hosting do we want to use for the database?
- It should take roughly 1-2 weeks to complete part 5

Tasks Allocated

- Aiden: Took notes over the meeting, create database tables
- Sam: Distributed tasks, assigned deadlines, and choose platform and hosting
- Jorge: Create database table's primary/foreign keys and constraints where needed
- Daniel: Write testing queries to check functionality, complete introduction
- Liam: Data population, Complete glossary
- Jack: Github management and ensure everything is present

Tasks to be completed based on deadlines posted in the Discord

Follow-up Actions

Next meeting *tentatively* scheduled for April 29th at 3:00pm to discuss Project Part 6: Presentation
